- 4. Courses for tractor drivers are organised in every district. Some of the repair and assembly workshops have been extended for beyond the scope of their original purpose. Workshops for the repair and assembly of tractors or tanks are to be found in a locality between Golecin and Starcleka in the suburbs of Poznan.* The TOK workshops are said to be equipped with mobile repair trucks of American type, to serve the well-supplied technical breakdown gangs.
- 5. In order to attract young agriculturalists to tractor driving courses, the TOR has established a very high level of wages for tractor drivers. These earn up to 40,000 zloty per month plus premium grants. A tractor driver on the estate belonging to the University of Poznan was paid a 280,000 zloty premium for the work carried out during the summer "campaign" of 1948.
